## ***Foreword***

This is my second Iris list and I hope it meets with your approval. I have been hybridizing Iris for many years and have specialized on fall and summer blooming Iris. I list my own introductions and a few originations of others that do well for me. I send out directions for care and fertilization of fall and summer bloomers on a separate sheet. I also list a few June blooming Iris that I like and do well for me. My garden is located in Westport, Massachusetts where I stay from May to November. It is on the main road to Westport Point and Horseneck Beach. Visitors are always welcome. June bloom is from June 1st to 15th or 20th. Peak bloom is June 10th, Summer and Fall bloom August 1st to November 1st. Try one of my collections and save money.

Address: Dr. G. Percy Brown
